

If you do not have Zoom installed on your computer and want to use Zoom through a web browser (Internet Explorer, Safari, Edge, Chrome, etc.), after you click the meeting link you will see a page like the following one. Click where you see a link circled in red for each of the three example windows. There is one intermediary step where you enter your name that I don't have an example for. You'll know you're "there" when you see a page like the last one.

The screenshot shows a web browser window with the Zoom website. The address bar contains the URL: [us02web.zoom.us/s/89059219847?pwd=Q0NXb3FzYVZVVm9iUWVBUFc3c1F0QT09#success](https://us02web.zoom.us/j/89059219847?pwd=Q0NXb3FzYVZVVm9iUWVBUFc3c1F0QT09#success). The Zoom logo is in the top left, and 'Support English' is in the top right. The main content area has the following text:

Click **Open Zoom Meetings** on the dialog shown by your browser
If you don't see a dialog, click **Launch Meeting** below

Below this text is a blue button labeled "Launch Meeting".

Further down, there are two links:

- Don't have Zoom Client installed? [Download Now](#)
- Having issues with Zoom Client? [Join from Your Browser](#)

The link "Join from Your Browser" is circled in red. At the bottom of the page, there is a copyright notice: "Copyright ©2021 Zoom Video Communications, Inc. All rights reserved. Privacy & Legal Policies" and a blue chat bubble icon.

The taskbar at the bottom shows several open files: "zoom install Andr....png", "iPad control locati....png", "video off.jpeg", and "camera settings.png". A "Show all" button is visible on the right side of the taskbar.
